International Journal of Applied Science and Engineering, Vol. 2 No. 1, April, 2014 (Page 1-82)

1. Influence of Fiber Volume Fraction, Fiber Angle and Hole Size on the Stress Concentration around the Circular Hole of an Orthotropic Lamina under unidirectional in Plane Loading
Chaitanya Goteti and Sreenivasulu Reddy 1
2. Personal Verification Through Finger Vein Pattern Recognition Using Support Vector Machine
T.Thilagavathy and K. Siruba 13
3. Modern Indian Youth: Reasons and Result of Unrest and Core Agitation
Kapil Dev Sharma 21
4. Tribal Identity and the implications for Political and Cultural Development: A Sociological Analysis
B. Ranganatha 27
5. E-governance Data Security using Steganography, Concepts, Algorithms and Analysis
Tanmoy Halder, Sunil Karforma and Rupali Mandal 41
6. Green and Environmental Friendly Domain and Discipline: Emerging Trends and Future Possibilities
Prantosh Kumar Paul, Kalyan Kumar, D. Chatterjee, M. Ghosh, J. Ganguly and K.L. Dangwal 55
7. A Comparative Analysis of Data Compression Techniques
Boukari Souley, Prodipto Das and Shirley Tanko 63
