1.	Beyond Born versus Made: A New Look at Expertise	1				
	David Z. Hambrick, Brooke N. Macnamara, Guillermo Campitelli, Fredrik Ullén and Miriam A. Mosing					
	1. Introduction	2				
	2. The Deliberate Practice View	3				
	3. Challenges to the Deliberate Practice View	5				
	4. What Else Matters?	22				
	5. Toward a Comprehensive Model of Expertise	40				
	6. Beyond Experts Are Born versus Made	44				
	Acknowledgments	46				
	References	46				
2.	Explaining the Basic-Level Concept Advantage in Infantsor					
	Is It the Superordinate-Level Advantage?	57				
	Gregory L. Murphy					
	1. Introduction	58				
	2. Developmental Category-Level Differences	62				
	3. Infant Categories	68				
	4. Models of Infant Concept Acquisition	76				
	5. Proposed Resolution	77				
	6. Morals and Recommendations	87				
	Acknowledgments	89				
	Supplementary Material	90				
	References	90				
3.	Believing that Humans Swallow Spiders in Their Sleep: False					
Beliefs as Side Effects of the Processes that Support Accurate						
	Knowledge	93				
	Elizabeth J. Marsh, Allison D. Cantor and Nadia M. Brashier					
	1. Introduction	94				
	2. General Properties of the Knowledge Base	96				
	3. Examples of Errors	104				

	4.	Adaptive Processes that Also Support Errors	107
	5.	Lingering Questions about Error Representation and Retrieval	116
	6.	Correcting Errors in the Knowledge Base	» 119
	7.	Conclusions	124
	Refe	erences	125
4.	The	e Role of Stimulus Structure in Human Memory	133
	Rol	bert L. Greene	
	1.	Introduction	133
	2.	Empirical Demonstrations of Structural Effects on Memory	138
	3.	What We Know and What We Don't Know	150
	Refe	erences	155
5.	The	e Role of Motor Action in Memory for Objects and Word	ds 161
	Rer	né Zeelenberg and Diane Pecher	
	1.	Introduction	162
	2.	Short-Term Memory	166
	3.	Long-Term Memory	183
	4.	Final Conclusions	187
	Refe	erences	187
